Employer Survey Results 2018
For Telecommunication Engineering Program

www.eng.najah.edu
equ@najah.edu

Introduction

The Quality and Accreditation Unit (ABET center) has recently launched the Employer Survey for 2018 cycle online. The survey has targeted the employers of the Telecommunication Engineering Program locally and abroad to assess and improve the quality and the intended outcomes of the educational programs, and to involve them with the reviewing process of the Program Educational Objectives, and taking feedback from them about our alumni.

Executive Summary

A total number of 122 employers responded to the survey, 7 of whom were from the Telecommunication Engineering Program.

Most of the respondents are employers in non-governmental organizations; also most of the organizations have less than 100 employees.

The employers indicated that they are fairly satisfied with Telecommunication Engineering Program Educational Objectives (PEOs).

CHAPTER 1

INFORMATION ABOUT THE ORGANIZATION

Type of Business

Organization Size (Number of Employees)

Number of Telecommunication Engineering Graduates in your organization?

CHAPTER 2

PROGRAM EDUCATIONAL OBJECTIVES

Satisfaction Rate of the Telecommunication Engineering Program Educational Objectives (PEOs)

PEOs of Telecommunication Engineering Program:

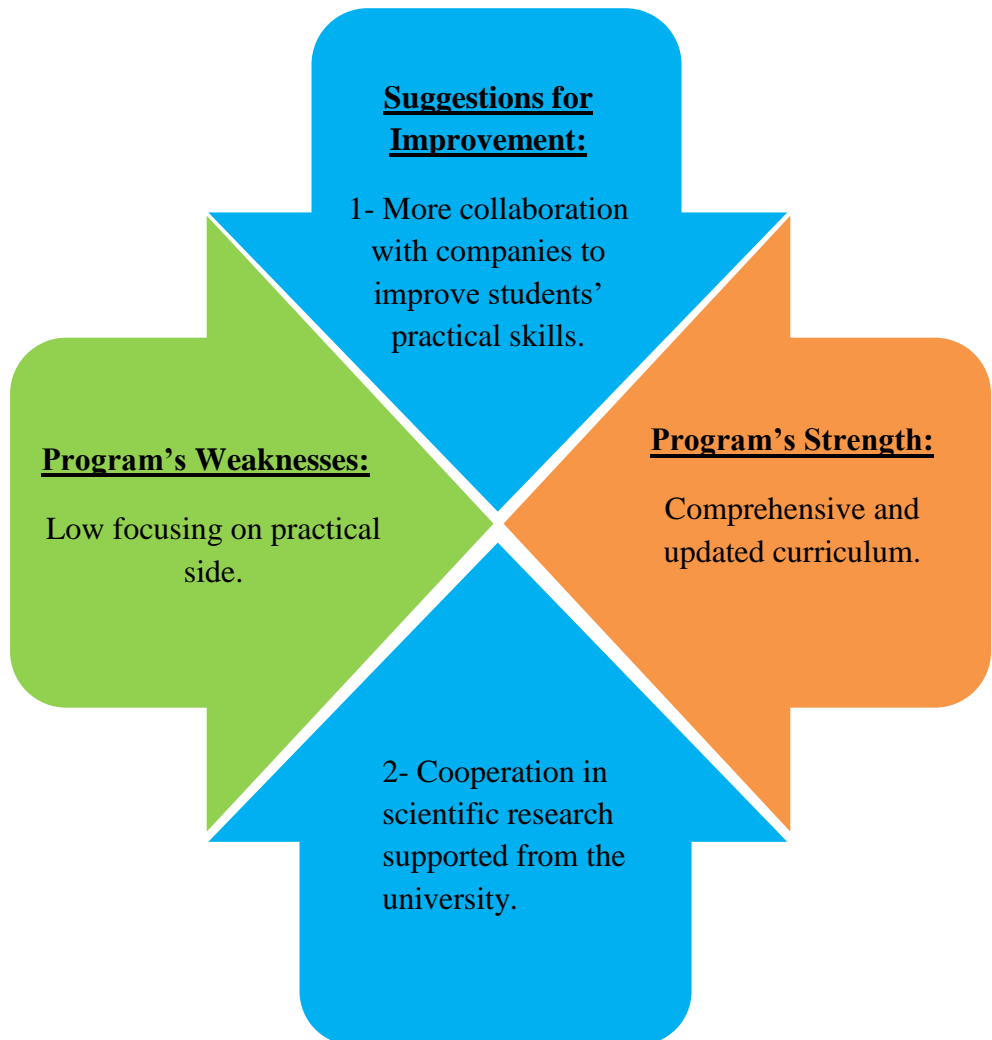

PEO 1: *Demonstrate competency in the design, analysis, optimization, and implementation of modern Telecommunication systems.*

PEO 2: *Compete effectively in a world of rapid technological changes, and become leaders, entrepreneurs, and innovative managers or educators in the broad context of Telecommunication engineering.*

PEO3: *Adapt to different roles and responsibilities in multicultural working environment by respecting diversity, professionalism within the organization and society at national and international levels.*

PEO4: *Successfully pursue graduate degrees and become consultants in their respective fields.*

The Employers' Comments about Telecommunication Engineering Program (program's strengths, deficiencies, and suggestions for improvement) were as the following:
