## Quality and Accreditation Unit-ABET Center

### Electrical Engineering Program Employer Survey results 2014

#### Introduction

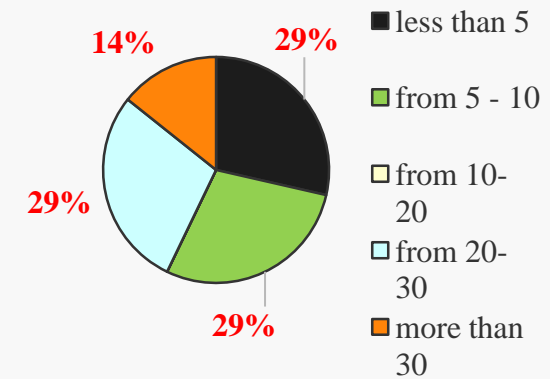

The Quality and Accreditation Unit (ABET centre) launched the Employer Survey 2014 online in February 2014. The survey has targeted the employers of the Electrical Engineering Program locally and abroad to assess and improve the quality of the educational programs, and to involve them with the reviewing process of the Program Educational Objectives, and taking feedback from them about our alumni.

#### Executive summary

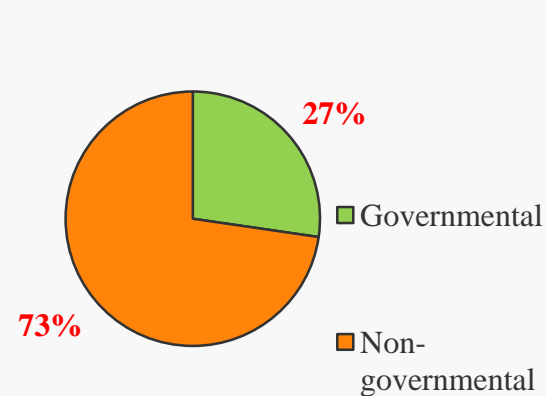

A total number of 131 employers responded to the survey, 11 of whom were Employers of the Electrical Engineering Program. Most of the respondents are employers in non-governmental organizations, also most of the organizations have more than 400 employees.

The employers indicated that they are satisfied with the newly rephrased Electrical Engineering Program Educational Objectives (PEOs).
